COURSE OUTLINE

The Catholic University of Eastern Africa (CUEA)
A.M. E.C.E.A.
Department of Geography and Environmental Studies
Faculty of Arts and Social Sciences (FASSc)

GS 104: Environmental Studies 3 Credit

Trimester: Sept-Dec. 2024 (2024/2025)

Instructor: Dr. Frida Nyiva Mutui **Thursday 8:00 -11:00am**

Purpose

The purpose of this course is to introduce students to principles of environmental conservation and management from an empirical perspective; to enhance an understanding of the relationship between the human beings and non-human phenomena. It is aimed at equipping the students with positive attitudes and perception of our environment as a delicate and sensitive life giving and sustaining sphere. This course is aimed at achieving behavior change with regard to the environment.

Objectives

By the end of the course the learner should be able to;

- Give a detailed analysis of the concept of environment.
- Discuss the current environmental issues and constitutional and legislative framework on environment in Kenya.
- Assess the concept of environmental sustainability.
- Describe the role of humans in the environment.
- Examine the main Global environmental issues.
